

Basic Hand Appliqué Techniques Supply List

- Assorted small scraps of several fabrics for appliqué. You will want to wash these before class.
- Large scrap of a neutral fabric for your background. Does not need to be washed, but it's OK if it is washed.
- Thread to match the appliqué fabrics. You may want to buy just one or two neutral colors to get started. I prefer DMC Machine Embroidery Thread 50 Weight. It's a fine thread and helps your stitches to almost disappear.
- Short appliqué pins, pencil, paper shears and SMALL sharp fabric scissors.
- Hand sewing needles. I prefer Size 9 or 10 milliners or straw needles, but any hand sewing needle will work.
- Thimble (if you use one).

We will be hand sewing, no need to bring a sewing machine.

Appliqué patterns will be given in the class.

During the class you will be making several small samples and learning several appliqué techniques.
